STATE BOARD OF DENTISTRY

IN THE MATTER OF THE SUSPENSION	:	Administrative Action
OR REVOCATION OF THE LICENSE OF	:	
	:	
GUY WARREN HENRY, D.D.S.	:	ORDER
	:	
TO PRACTICE DENTISTRY IN THE	:	
STATE OF NEW JERSEY	:	
	:	

This matter was opened to the New Jersey State Board of Dentistry ("Board") upon the filing of an Emergent Application For Stay of the Final Decision and Order in this matter entered by the Board on November 17, 1994. That application having been presented by Pamela Mandel, Esq., on behalf of the respondent, was filed without any documentation to support the allegation contained therein that both respondent and another dentist delivered urine samples to the same collector during the weekend of August 26-August 28, 1994 and that the urine samples may have been switched. The Board having received a response from Kathy Rohr, Deputy Attorney General objecting to respondent's application for a stay, asserting that the facts and circumstances surrounding the taking of the urine samples and the mailing of the urine samples to the laboratory for the respondent and the other dentist who used the same collector do not support even a possibility that the urine samples of these two individuals could have been switched. In

support of the response of D.A.G. Rohr were attached copies of the laboratory reports and the laboratory slips completed by the collector for respondent and the other dentist. The Board President has reviewed and considered the written materials submitted by counsel for respondent and the Deputy Attorney General and based thereon finds that there is no basis upon which to grant a stay of the Final Decision and Order entered by the Board on November 17, 1994. Respondent failed to present any proofs to persuade the Board President that the confirmed positive urine sample at issue is not a valid specimen belonging to the respondent. Accordingly, the application for a stay is denied.
